PROFESSIONAL SUMMARY

Highly motivated Junior Java Developer with hands-on experience in Java, Spring Boot, MySQL, and RESTful web services. Strong foundation in object-oriented programming, backend application development, and relational database design using Spring Data JPA and Hibernate. Experienced in developing scalable CRUD-based applications, implementing MVC architecture, and deploying applications in Linux environments. Seeking an entry-level Java or Backend Developer role to contribute to production-grade software systems.

TECHNICAL SKILLS

Programming Languages: Java, Python

Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs

Databases: MySQL, SQL, Relational Database Design

Frontend: HTML, CSS, JavaScript, Thymeleaf

Tools: Git, GitHub, Maven, IntelliJ IDEA, MySQL Workbench, PuTTY, WinSCP

Operating Systems: Linux (Ubuntu), Unix

Core Concepts: OOP, MVC Architecture, CRUD Operations, Authentication & Authorization

ACADEMIC & PERSONAL PROJECTS

Core Banking System 🔄

Dec 2025

- Developed a mini core banking application simulating real-world banking operations.
- Implemented branch, employee, customer, account, and transaction management modules.
- Designed normalized relational database schema using Spring Data JPA and Hibernate.
- Developed REST APIs for deposit, withdrawal, fund transfer, and transaction history.
- Ensured data integrity using One-to-Many and Many-to-One entity relationships.
- Followed MVC architecture for maintainable and scalable codebase.

Symposium Management System 🔄

Sep 2025

- Built a full-stack web application for managing college-level symposium events.
- Implemented role-based access control for administrators and participants.
- Developed event registration, scheduling, and participant management modules.
- Automated certificate generation and maintained participant records using CRUD.
- Secured **4th Position** in Inter-College Project Expo.

EduTrack – Academic Performance Management System 🔄

Aug 2025

- Developed a student academic performance tracking system.
- Implemented authentication and authorization using Spring Security.
- Created modules for subject management, grade entry, and CGPA calculation.
- Designed dashboards to visualize student academic progress.

Hospital Management System 🔄

Aug 2025

- Developed a hospital workflow management system for doctors, patients, and appointments.
- Implemented REST APIs for appointment booking and patient record management.
- Built end-to-end CRUD functionality using Spring Data JPA and MySQL.

PRACTICAL & TECHNICAL EXPOSURE

- Hands-on experience developing RESTful services using Spring Boot.

- Strong understanding of database schema design and SQL query optimization.
- Experience with Git-based version control and collaborative workflows.
- Deployed and tested applications in Linux (Ubuntu) environments.
- Knowledge of secure coding practices and backend validation.

EDUCATION

B.Tech – Information Technology	2023 – 2027
The Kavery Engineering College	CGPA: 8.35
Higher Secondary (HSC)	2021 – 2022
Government Higher Secondary School, Perumbalai	
Secondary School (SSLC)	2019 – 2020
Government Higher Secondary School, Perumbalai	

CERTIFICATIONS & ACHIEVEMENTS

- Accenture – Data Analytics Virtual Experience Program
- CodSoft – Python Programming Internship
- Imagecon Academy – Engineers Day Project Contest
- **4th Place** – Symposium Management System, Inter-College Project Expo
- Top 10 – Code Debugging Competition, Kavery Engineering College
- Active problem solver on HackerRank and LeetCode

SOFT SKILLS

Problem Solving, Analytical Thinking, Team Collaboration, Communication Skills, Time Management

LANGUAGES

English, Tamil, Telugu
